We have a new photo album in the campaign picture gallery. It's just started, but this will be where we will be putting pictures of Anne with noted state and national Democratic politicians and candidates. It's just started and it presently only has two pictures (but they are well worth the look!), but check back in the days ahead, as this album is sure to grow.

Over time, you will also see a lot of pictures from all of the campaign. Keep your eyes peeled on the campaign photo album for more!
